

HELIX Tracker

The TRACKER is the ideal professional model for the driven hunt, as well as for tracking wounded game: with its particularly short semi-weight barrel, 5-rounds magazine, driven hunt sights and a bolt handle with non-slip knob for rapid bolt action. The magazine slot incorporates a security mechanism to prevent it accidentally coming loose in the thicket. The synthetic stock has several special sling swivels attachments in the middle of the buttstock and on the barrel - this allows the TRACKER to be carried comfortably on the back. The TRACKER is available in anthracite or camo orange color.
