

SR1 Standard

At first glance the SR1, with its ergonomic design, appears aesthetically removed from the values of the company. On second glance, however, the high precision, the form-fitted design and the functionality of this hunting gun discloses the ?esprit? of the Suhl gunmaking art. Example: the self-cleaning system of the gas-pressure self-loader allows the use of a wide range of ammunition without manual intervention in the gas system.

TECHNICAL DATA

SYSTEM Semi-automatic rifle / Self-loading gas pressure system / 6 locking slugs turning head lock / 2-round magazine (+1) / Safety automatic - only fireable when properly locked

CALIBRE **Standard calibre:** .223 Rem. / .270 Win. / .308 Win. / .30-06 Spring. / 7x64 / 8x57IS / 9,3x62 / **Magnum calibre:** .300 Win. Mag.
